Exclusive visits to the Suñol Soler Contemporary Art Collection

The Fundació Suñol is a private non-profit organization that preserves and displays the Suñol Soler Collection. It promotes the dissemination and production of contemporary art and spearheads public and educational programs aimed at schools and a variety of groups, some of which are highly vulnerable, in collaboration with the Fundació Glòria Soler, also created by Josep Suñol Soler.

The Suñol Soler Collection is one of the most extensive private contemporary art collections in Catalonia and Spain. It is made out of more than two hundred and fifty artists, including a large number of internationally renowned artists. The coherence and quality of the works that compose the collection provide a broad and representative view of the artistic creation itinerary from 1915 to 2006.

The Suñol Soler Collection reveals a special way of understanding the art of collecting, which is built by a strong affective relationship with the artists, and

is based on the trust in each of their projects. As a result of this personal positioning, the collection has been configured by Josep Suñol for more than forty years of dedication, during which he has also established links with professionals related to the world of art. It is through this idea that the collection is considered a particular memory but also a collective one.

The visit includes a presentation of the Fundació Suñol and the temporary exhibition at the time. Afterwards, an exclusive itinerary is offered through the headquarters and the Collection warehouse, a space closed to the public. The visits are conducted by the management staff of the Fundació Suñol.

The Fundació Suñol is funded mainly with its own resources and private donations. All the income generated is used for the activity itself and its founding mission.
